

# LOVE THAT HERRING

# HERRING

We have been satisfying the needs of our customers for over **30** years.

The HERRING company was founded in 1992.

Initially the company was preoccupied with the traditional smoking of fish. In 1997, we specialized in the processing of herring and we started trading in frozen fish.

The company has a very convenient logistic location: it is located in central Poland, in Wielka Nieszawka near Toruń.

We deliver our products to customers using our own transportation. The location of the plant near the beautiful and clean Bydgoszcz Forest is also a great advantage, because clean air is also an important factor in food production.

Over the years, the company underwent many modernizations. In 2017, the company underwent its latest expansion and is planning more.

It meets all EU sanitary requirements and is equipped in modern machines.

The raw material for production is mainly herring which is imported from Norway where it is caught in the crystal clear waters of the Atlantic.

The main items of production include processed salted and marinated fish and herring salads.

We also offer pasteurized fish.

The full range of our products can be found in the current commercial offer on our website.

All our products are of high quality and come in a variety of flavours.

Let us inspire you with the taste and health qualities which are guaranteed by the herring which we prepare. We invite retailers and wholesalers from across Poland to cooperate with us.

### ATLANTIC HERRING *clupea* *harengus*

For centuries herring has been a well-known delicacy in Polish cuisine. It has been traditionally used in fasting dishes. It is a sea fish, rich in Omega 3, which is why it is recommended in the anti-infarction diet. Herring is also a great source of vitamins A, D, and E, and group B vitamins which are responsible for the beautiful appearance of hair and skin. In addition to its healthful properties, herring has also an exquisite taste. It is a common ingredient in salads and snacks, but can also be served as a main dish.

# SALTED FISH

## **SALTED FISH**

The base for the production of our leading ranges, which are matjes fillets and salted herring with heads removed, is herring imported from leading companies in Norway and Iceland with which we have been working for years. Both salted herring and Matjes fillets may be used for the individual preparation of all kinds of dishes, satisfying the varied tastes of our customers.

## MARINATED FISH

Bismarck and rollmop are products prepared according to the recipes that have worked for several years and are very popular among our customers. Marinades in oil are compositions of a variety of vegetables and spices which, combined with gently marinated herring fillets, satisfy even the most sophisticated palate.

# FISH SALADS

## **FISH SALADS**

Our salads are of high quality and great taste. We recommend them for the tables of our most demanding customers. Herring fillets in sauces mean a variety of flavours in which everyone will find something for themselves.

We offer you flavours from mild to more spicy, with a distinct hint of sweetness, various compositions of herring fillets with vegetables, and salads with mayonnaise sauces.

TASTES**

## ATLANTIC TASTES

Dutch matjes and pasteurised herrings are products for people looking for traditional and health-promoting flavors. The range of these products was created for consumers who appreciate the benefits of natural ingredients that do not contain any preservatives, sweeteners or food colouring. An additional advantage is that they have a high content of Omega-3 fatty acids. Dutch matjes under the brand Royal Atlantic Matjes is a premium-class young herring with a very delicate taste and consistency.
